CAREER OBJECTIVES

I'm an experienced developer seeking an employment opportunity with a fast-growing and reputable company/organization. I am a goal driven individual who loves challenges and working within a team. I would like to work in an environment which encourages me to succeed & grow professionally where I can utilize my skills and knowledge appropriately.

<THIS IS/> MY WORK EXPERIENCE

August 2018 - October 2019

PHP Developer

Lab Literal SA, Cape Town

I worked within a PHP development team, which was responsible for all development work throughout the company. Mainly used Drupal 7/8 and Angular 6 amongst our other tools. Managing AWS EC2 hosted web applications. I was furthermore responsible for writing standards docs for the team, participating in bi-monthly "TED Talks" to share ideas on what's available "out there".

March 2016 - May 2018

Web Developer

B Online, Cape Town

I was part of the start-ups then newly formed "custom application development team". Responsible of developing innovative solutions and implementing those solutions. I mainly acted as a backend developer. Amongst my development duties, I was also responsible in giving support to the WordPress development team, drafting client briefs and project scope(s).

July 2015 - February 2016

WordPress Developer

Lumico, Cape Town

Worked within a large team of web developers, content creators and designers. I was responsible of developing websites using the WordPress Content Management System. Hosting and maintaining websites that were hosted on our web servers. Participating in client meetings to get a better understanding of upcoming work/project(s).
